Leaving a lasting impression.

The best products look every bit as good as they perform. Unfortunately mechanical fasteners can limit both form and function. 3M™ VHB™ Tape can help expand your design possibilities and leave a lasting impression.

Creates unbelievable bonds.

Metal to metal, metal to plastic, plastic to tempered glass: 3M™ VHB™ Tape can help create striking results with dissimilar materials that would otherwise be almost impossible to bond.

Fastens seamlessly.

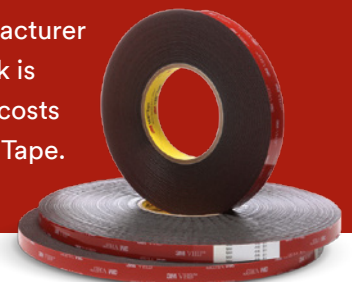

Rivets and screws can leave unsightly marks that can degrade your designs. 3M™ VHB™ Tape can help create a smooth finish with no trace of pocks or punctures.

Enables “invisible” designs.

3M™ VHB™ Tape is available in transparent options, helping you create products that appear to defy gravity.
