## Declaration of compliance for semi-finished products intended to come into contact with food <sup>1)</sup>

Vink Plast ApS hereby declare that:

### **PROLEN PE 500 Food Grade blue [PE-HMW]**

### **Semi-finished products: plates and Finished parts machined from these semi-finished products by Vink Plast**

is intended to come into contact with food and:

- Comply with the requirements of the Regulation (EC) No. 1935/2004
- With respect to the applied test conditions the tested material samples comply with the requirements of article 3 of the Regulation EU 1935/2004 in conjunction with the Regulation EU 10/2011. The results of all test runs were far below stated critical values for the global migration of 10 mg/dm<sup>2</sup>
- Are manufactured and handled according to good manufacturing practice (GMP) as set out in the (EC) 2023/2006 of 22. december 2006 on good manufacturing practice for materials and articles intended to come into contact with food.
- Declaration 681/2020/DK

Specification on the intended use of the products:

- Foods that are intended to come in contact with the material:  
All types of food
- Conditions of use:  
Any long-term storage at room temperature or below, including packaging by hot filling/or heating to a temperature up to 121 °C.

The migration test was carried out according to Regulation EU 10/2011 Appendix V under the following conditions:

Test simulant	Testing condition I	Testing condition II
3 % Acetic acid	2 h, 100 °C	10 d, 40 °C
Sunflower oil	2 h, 100 °C	10 d, 40 °C
10 % Ethanol	2 h, 100 °C	10 d, 40 °C
50 % Ethanol	2 h, 100 °C	10 d, 40 °C

Ratio of the surface with the foodstuff to volume (S/V), used to determine the conformity of the material.

s/v = 6 dm<sup>2</sup>/kg

All substances/monomers and additives according to Regulation EU 10/2011 are listed. In the material we use the following substances with restriction and/or specification:

Name of the substances	Restriction
Akuminium	SML = 1 mg/kg
Barium	SML = 1 mg/kg
Copper	SML = 5 mg/kg
Iron	SML = 48 mg/kg
Nickel	SML = 0,02 mg/kg
Zinc	SML = 5 mg/kg
Cobalt	SML = 0,05 mg/kg
1 Hexene	SML = 3 mg/kg
Substance A	SML = 30 mg/kg

The limit values for the metals listed in Appendix II of the Regulation EU 10/2011 are respected.

The limit values for the above mentioned materials according to Appendix I of the Regulation EU 10/2011 are applied under the test conditions adhered to.

The above information are based on our current state of information and knowledge and relate to the product we deliver. Under the specified food contact conditions, the product meets the legal requirements, the conformity test was carried out under conditions mentioned above. Vink Plast has no control and assumes no responsibility/liability for finished articles or their manufacture, processing and conditions of use and therefore assumes no responsibility for their conformity. The end product manufacturer is responsible for the compliance with the requirements of the applicable legal provisions. Rather, the end product manufacturer is in turn obliged to check the conformity of the intended purpose

This declaration expires 5 years after its date of issue or in case of regulatory or compositional changes which require reevaluation. Please always contact Vink Plastic' customer service for latest version. For information about available dimensions, please contact Vink Plast' customer service.
